

Teradyne Series

Test Platforms for the Teradyne Series

We offer a complete line of test fixture products for the Teradyne Spectrum and Z Series test platforms. Our Millennium design fixture products offer long-term reliability and an efficient, user friendly design. These kits meet the demand of today's high pin-count, component dense electronic assemblies. This series utilizes new, easy release registration pins that allow the user to quickly remove the top plate and gain access to the probe field. Two ergonomically designed handles allow the operator to easily manoeuvre the unit as needed. A finger safety lever has been installed to eliminate potential pinch points.

Teradyne Millennium Spectrum 8800 Series

Dimensions in inches (mm)

Model	Max. UUT A x B	Width	Length	Height	Lbs.
HZ8800-1216	8x12 (203x305)	16.5 (419)	13 (330)	5 (127)	15 lbs.
HZ8800-1620	12x16 (305x407)	20.5 (521)	17 (432)	5 (127)	23 lbs.
HZ8800-2030	16x26 (407x661)	31 (787)	21 (533)	5 (127)	37 lbs.
HZ88XX-2024	16x20 (407x508)	25 (635)	21 (533)	6 (152)	35 lbs.
HZ88XX-2030	16x26 (407x661)	31 (787)	21 (533)	6 (152)	40 lbs.
HZ88XX-2430	20x26 (508x661)	31 (787)	25 (635)	6 (152)	41 lbs.

Teradyne Millennium Z Series

Dimensions in inches (mm)

Model	Max. UUT A x B	Width	Length	Height	Lbs.
